Product Description

- The 360 degree pan instantly differentiates this from basic fixed angle monitors. Parents who have missed something on a standard camera immediately understand the value.
- Nursery and baby stores cater to customers in full preparation mode. First time parents buying large furniture items are looking for ultimate peace of mind, not the cheapest price.
- Hotels and serviced apartments buy these for family suites. Traveling parents highly appreciate properties that provide monitors to cater to their specific needs.
- Gift buyers love products with a clear, valuable purpose. A baby shower gift that keeps the child safe and helps parents sleep better is highly memorable and earns the giver great credit.

Scale smarter with the right partner.

High quality electronics, reliable supply, and support that grows with your business. Bulk pricing. Custom solutions. Real partnerships.
